MS3SP3a Supervised Pastoral Education (SPE): Pastoral Counselling Education (PCE) – Course Stream

Kelvin F. Mutter, DTh
mutterk@mcmaster.ca

Sept 14 to Dec 07, 2022
Wed 11:00am – 1:50 pm

1. **DESCRIPTION:**

Basic Pastoral Counselling Education (PCE) Units: Course-Based

“Course-based SPE” combines two types of education: formal or classroom-based instruction and experiential or practice-based instruction. Successful completion of MDC’s course-based SPE unit involves the successful completion of two approved counselling courses (one per semester) and both portions of practice-based education in the same academic year. The educational components of practice-based educational experience include clinical practice experience in a setting approved by MDC, participation in scheduled supervision sessions (individual/dyadic supervision & group supervision), ethical/spiritual reflection, theory building, and reflecting on the “safe and effective use of self” (i.e., interpersonal relations). The student’s clinical work will be supervised by means of audio/video tapes and/or verbatims which will be shared within the supervision group. *Students enrolled in a Basic unit of course-based SPE are expected to complete and document a minimum of 125 hours of direct client contact by the end of the second semester.*

SPECIALIZATIONS: Counselling and Spiritual Care (CS).

Advanced Pastoral Counselling Education (PCE) Units: Unit-Based

“Unit-based PCE” is available to individuals who have graduated from MDC’s specialization in Counseling and Spiritual Care. Depending on enrollment, a graduate of MDC’s specialization in Counseling and Spiritual Care may be accepted as a “Unit-based PCE” student as long as they are not taking the place of a student who is currently registered in coursework at MDC. To receive credit for this integrative learning experience the student must educational components of the PCE. These educational components include attendance at scheduled supervision sessions at MDC (individual/dyadic supervision & group supervision), clinical practice experience, ethical/spiritual reflection, theory building, and reflecting on the “safe and effective use of self” (i.e., interpersonal relations), assigned readings, and written assignments. The student’s clinical work will be supervised by means of audio/video tapes and/or verbatims which will be shared within the supervision group. Individuals enrolled in an Advanced unit of unit based PCE are expected to complete and document a minimum of 150 hours of direct client contact (**Note:** *students whose goal is to be certified by CASC/ACSS are advised that they need to complete 500 hours of direct client contact at the Advanced level before they can proceed for certification*).

SPECIALIZATIONS: Counselling and Spiritual Care (CS).

6. EXPECTATIONS AND ASSIGNMENTS (Fall 2022)

Attendance & Participation

Except for illness or extenuating circumstances students are expected to be at their placement site each week of the SPE Unit. In the event of an absence, it is the student's responsibility to directly inform both their on-site as well as the SPE instructor.

Except for illness or extenuating circumstances students are expected to attend all scheduled supervision sessions at MDC and participate in the learning activities. Participation in this supervision includes preparing a written verbatim of a counselling encounter using the assigned format which will be presented as a case study and engaging with the supervisory conversation.

6.1. "Reflecting On" practice

Learning Objectives

- To demonstrate awareness of the impact of the client's context on the therapeutic process.
- To employ effective skills in observation of self, the client, and the therapeutic process.
- To demonstrate awareness and maintenance of appropriate therapeutic boundaries.
- To demonstrate awareness of the impact of the therapist's subjective context on the therapeutic process.
- To recognize the impact of power dynamics within the therapeutic relationship.
- To protect client from imposition of the therapist's personal issues.
- To employ effective and congruent verbal and non-verbal communication.

6.1.1. "Use of Self" Reflection Journals (Knowing, Being, Doing)

The best counsellors and clinicians reflect on and learn from both their failures as well as their successes. The student will keep a weekly journal (approx. 1 hour per week) in which they identify and briefly reflect on important situations and/or concerns that arise during their placement. It is permissible for a student to reflect on the same situation/question over the course of multiple weeks. This journal is intended to promote self-awareness as well as awareness of others. This journal is for personal use only and will not be graded.

Writing the Journal

Step 1: Select and describe an experience or situation in your placement that was significant.

Step 2: Identify the issues that are of concern to the client, including the feelings evoked within the client, as well as the client's world of meaning as it applies to the issue/situation.

Step 3: Identify your awareness of your responses to the client's story: e.g., emotions that were evoked, personal issues (past or present) that may have been evoked, personal beliefs or biases that have been evoked, etc.

Step 4: Reflect on this experience in light of the CASC/ACSS and CRPO codes of ethical practice. Are any issues raised with respect to your response to this situation?

Step 5: Reflect on this experience in light of the themes and skills identified in Sbanotto et al.

Step 6: Reflect on this experience in light of Scripture; allow the words, scenes, passages of Scripture to surface and shape your thinking.

Step 7: Identify what you have learned from this experience and how it has shaped your view of yourself as both a counsellor and a ministering person.

6.1.2. Verbatims and Audio/Video Recordings of Counselling Sessions

Weekly

6.1.2.1. Audio/Video Recordings of Counselling Sessions

The best student learning results from observing one's own work and reflecting on it. Each week students are required to provide evidence of their growing edges as a counsellor and their counselling skills by presenting a portion of an audio recording of a session with a client. Students whose placements do not permit them to record counselling sessions will need to speak with the course professor about a suitable alternative learning experience: e.g., record a session with a fellow student who has consented to be part of a mock interview scenario, or a write a verbatim of a session.

Instructions:

- Record a counselling session.
- Follow the instructions in the *SPE Placement Handbook* titled: "Use of Audio and Video Recordings for Supervision Purposes."
- Select a brief portion of the session for which you desire feedback. Audio selections may be chosen because i) a student wishes to demonstrate a successful use of a counselling skill, ii) a student wants feedback on their use of a particular skill or use of skills, iii) a student is feeling 'lost' and is seeking guidance as to how to respond to what has been said, or iv) for other reasons.
- Ask yourself the following questions as you prepare to present this recording.
 - What do you believe you did well in this session / segment?
 - What do you want the instructor/group to focus on as they listen to the recording? Is there a specific question you wish to have answered?

6.1.2.2. Verbatim Assignments

Students will reflect on, and write a verbatim report derived from, a single counselling session. These verbatim reports will be 8 pages, single-spaced, adhere to the verbatim format provided to the class.

Instructions:

- Listen to a recording of a counselling session with client and transcribe a five-minute segment that you wish to reflect on.

NOTE 1: In the absence of a recording, the student will, immediately after the session, write a transcript of a segment of the counselling session based on their memory.

NOTE 2: To obscure the client's identity and protect their confidentiality students are required to omit and/or change any information that may identify the person (e.g., name, names and ages of family members, number of children, employment data, affiliations, etc.).

- Use the transcription to write a verbatim account (cf. Practicum Manual) of the counselling session that includes the following elements.
 - Known Facts, Pre-constructions, and Initial Observations.
 - Verbatim of the conversation.
 - Reflection on the conversation.

6.1.3. Mid-Placement Evaluations (Knowing, Being, Doing)

Dec 7, 2022

The purpose of these evaluations is to identify and reinforce what the student has learned in the SPE Unit.

- The student will meet with their on-site supervisor to complete and review the counselling skills rating sheet that will be provided.

Disclaimer: This syllabus is the property of the instructor and is prepared with currently available information. The instructor reserves the right to make changes and revisions up to and including the first day of class.

- The student and the SPE course instructor will each complete the CASC/ACSS evaluation form and meet to discuss these evaluations during the week on Dec 7, 2022.

6.2. “Reflecting For” practice

6.2.1. Learning Contact (Knowing, Being, Doing)

Sept 28, 2022

The student will collaborate with their Field Instructor to develop a set of learning goals which will form the basis of their learning contract and subsequent evaluation.

6.2.2. Risk Assessment (Knowing, Doing)

Oct 12, 2022

Based on the case study provided, consider this individual’s known risk to self and others. What questions would you ask this person to complete a risk assessment? Assignment should not exceed one page (single spaced).

6.2.3. Assessment (Knowing, Doing)

Nov 23, 2022

Draw on in-class discussion and the Practicum Handbook to write an assessment for the case study. Assignment should not exceed two pages (single spaced).

Questions to consider.

- What does the client perceive to be the core problem?
- Identify relevant historical data present in the case study? What potentially relevant historical data (perhaps not mentioned) would you ask about? Provide a brief statement of the purpose of this/these question(s).
- Has the client tried anything to cope with his situation? If so, how? Outcome?
- What skills, insights, competencies, etc. do you discern in the client’s story (e.g., evidences of or potential for change)? You are free to imagine or add data as long as it is consistent with the initial case data.
- How do you think the client would answer the question “How do you think that counselling will help you?” (i.e., counselling goal)
- What factors might help support the change process?
- What do you perceive to be the core problem?
- What do you see to be the “next step” in counselling this individual?

7. COURSE ADMINISTRATION:

Instructor Availability:

Throughout the course, Dr. Mutter will be available via email (mutterk@mcmaster.ca), WebEx and the discussion forum on Avenue to Learn. During the hybrid week, Dr. Mutter will be available for one-on-one consultation after class and during breaks on the days class is scheduled.

Interpersonal Interactions:

General: Please respect the opinions of others, even if you do not agree with them. Feel free to respond logically and in an orderly manner.

Students are encouraged to...

- Arrive on time.
- Stay for the entire SPE session.
- Not engage in anything during the SPE session that prevents them or others from focusing and participating in the discussions.
- Not to carry on private conversations. This applies to spoken and electronic communication. If something is unclear, the whole group will benefit by a question being asked out loud.
- Silence cell phones and related devices during class. If a student must for some reason accept a phone call, he or she ought to discretely leave the SPE session to do so.

Written Work:

Gender Inclusive Language:

McMaster Divinity College uses inclusive language for human beings in worship services, student written materials, and all its publications. It is expected that inclusive language will be used in chapel services and all MDC assignments. In reference to biblical texts, the integrity of the original expressions and the names of God should be respected, but you will need to use gender inclusive language for humans, and you will need to quote from a gender-inclusive version such as the following: NRSV (1989), NCV (1991), TEV/GNB/GNT (1992), CEV (1995), NLT (1996), TNIV (2005), and the Common English Bible (CEB 2011).

College Style for Written Work:

All written work—unless informed otherwise by the professor—is to be submitted in accordance with the *McMaster Divinity College Style Guide for Essays and Theses*, available on the McMaster Divinity College website (<https://mcmasterdivinity.ca/resources-forms/mdc-style-guide/>).

Length:

Students are expected to adhere to the assignment page / word count. If a paper exceeds the word count, grace will be accorded for the first 10%. However, the grade will be reduced by 1/3 of a letter grade for each additional 10% a paper exceeds the stipulated word count.

Submission of Written Work:

All written work is to be submitted by email in either MSWord format, “Rich Text Format” (i.e., *.rtf), or as an Open Office document. PDF files are not acceptable as it can be more difficult to provide comments and feedback on the assignment.

Deadlines:

Disclaimer: *This syllabus is the property of the instructor and is prepared with currently available information. The instructor reserves the right to make changes and revisions up to and including the first day of class.*

All assignments are due on the day indicated (by email before 5 p.m. of the day due). A late penalty of 2% per day will be applied to all assignments submitted after the deadline unless an extension has been obtained from the instructor prior to the deadline. Assignments cannot be submitted after December 10, 2020 without written permission from the Office of the Registrar.

Statement on Academic Honesty:

Academic dishonesty is a serious offence that may take any number of forms, including plagiarism, the submission of work that is not one's own or for which previous credit has been obtained, and/or unauthorized collaboration with other students. Academic dishonesty can result in severe consequences, e.g., failure of the assignment, failure of the course, a notation on one's academic transcript, and/or suspension, or expulsion from the College. Students are responsible for understanding what constitutes academic dishonesty. Please refer to the McMaster University Academic Integrity Policy - <http://www.mcmasterdivinity.ca/programs/rules-regulations>.
