

DPT Program Progress Checklist

Student Name: _____ Start date of program: _____

Primary Supervisor: _____

Secondary Supervisor: _____

Emphasis (brief description of study area): _____

The completion of the Program Progress Checklist is a requirement for graduation.

Purpose

McMaster Divinity College's DPT program develops graduates who are equipped to serve as leaders in the church, academy, and society as both ministry practitioners and thought leaders. As scholars, they will have established the knowledge base, skills, and original thought for a professional doctorate degree. As Christians, they will have developed life patterns to continue to serve well and grow professionally. As professionals, they will have developed the ability to effectively communicate in academic and professional settings.

Program Standards and Progress

Each DPT student has a unique set of strengths and interests that will be developed and evaluated by the student's doctoral committee. The committee will monitor the requirements. All students who earn a DPT from McMaster Divinity College will have achieved the minimum requirements under the Knowing, Being, and Doing categories. When the supervisor or another committee member ascertains that a requirement has been achieved, she or he will indicate such by inserting their initials and the date beside that requirement. Since each requirement is to be met with excellence, it is expected that all committee members will concur and sign off on each requirement. In exceptional cases where affirmation is not unanimous, the VP Academic will confirm whether the requirement has been met. Eventually the checklist will also serve as a helpful template for faculty recommendations on behalf of the student.

Responsibility for Completion

It is the student's responsibility to progress toward the degree and for the primary supervisor to evaluate that progress. The DPT can be completed in a minimum of 3 years but students have a maximum of 6 years to complete the program. The primary and secondary supervisors will initial beside each requirement to indicate that it has been met. The primary supervisor will hold onto this checklist until the student has completed the program. At the end of the program, the primary supervisor and student will sign and date in the Program Completion section at the end of this checklist to confirm that all the program requirements have been met. The primary supervisor will email the completed form to Student Records at divreg@mcmaster.ca and cc the Registrar at mdcreg@mcmaster.ca.

Completion of Each Year

The primary and secondary supervisors will initial beside each year as the student completes that year of the program. If the student has not made minimal program progress for a particular year, the primary supervisor will prescribe a plan of action including a timeframe for completion.
